Materials Safety Data Sheet

Europium Oxide Powder

1. Product and Company Identification

Product Name: Europium Oxide
Formula: Eu_2O_3
CAS: 1308-96-9
EC No.: 215-165-6
Synonyms: Europium(III) oxide

Recommended Use: Laboratory chemicals, scientific research.
Uses advised against: No information available.

Supplier: UltraPurMat Group Co., Ltd
Address: Room 307, Building 2, Tengfei Innovation Center, No38 Gaoxin 6th Road, High-tech Zone, Xi'an Shaanxi China
Tel: +86-29-88993870
Email: sales@ulpmat.com
Website: www.ulpmat.com

24-Hour Emergency Contact: +86-13572830939

2. Hazards Identification

Classification of the substance or mixture
Classification according to Regulation (EC) No 1272/2008 (CLP)
The substance is not classified as hazardous

GHS Label elements, including precautionary statements
Pictogram: None
Signal Word: None
Hazard statement(s): None
Precautionary Statement(s): None

Other hazards: This product does not contain any known or suspected endocrine disruptors.

3. Composition

Components	CAS	Classification (H)	Concentration
Europium oxide (Eu_2O_3)	1308-96-9	Not classified	<= 100%

4. First Aid Procedures

Description of first aid measures

General Treatment: If symptoms persist, call a physician.

Inhalation: Remove victim to fresh air. If breathing is irregular or stopped, immediately seek medical assistance and start first aid actions.

Skin: Take off immediately all contaminated clothing. Rinse skin with water/shower. Seek medical attention.

Eyes: Rinse with pure water for at least 15 minutes. Remove contact lenses, if present and easy to do. Seek medical attention.

Ingestion: Never give anything by mouth to an unconscious person. Rinse mouth with water. Seek medical attention if symptoms occur.

Most important symptoms and effects, both acute and delayed

The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11.

Indication of any immediate medical attention and special treatment needed

Based on the symptoms that appear, provide appropriate treatment. Be aware that symptoms may be delayed.

5. Firefighting Measures

Extinguishing Media: Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

Unsuitable extinguishing media: No information available

Special hazards arising from the substance or mixture

The product is not expected to be flammable under normal conditions of use. In the event of a fire, consider the hazards associated with the surrounding materials and packaging.

Advice for firefighters

As in any fire, wear a pressure-demand, self-contained breathing apparatus (MSHA/NIOSH-approved or equivalent) and full protective gear. Fight the fire from a safe distance with adequate protection, prevent firefighting water from entering drains or watercourses, and collect contaminated firefighting water separately.

Further information

No data available

6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel: Remove persons to safety. Use personal protective equipment as required. Avoid dust formation. Remove all sources of ignition.
For emergency responders: Wear breathing apparatus if exposed to vapours/dust/spray/gases.

Environmental precautions

Keep away from drains, surface and ground water. Retain contaminated washing water and dispose of it.

Methods and materials for containment and cleaning up

Prevent the material from entering drains. Collect the spilled material mechanically while minimizing dust generation, and place it in a suitable container for disposal.

Reference to other sections

Refer to protective measures listed in Sections 8 and 13.

7. Handling and Storage

Precautions for safe handling

Recommendations: Wear personal protective equipment/face protection. Ensure adequate ventilation. Avoid ingestion and inhalation. Avoid dust formation. Do not get in eyes, on skin, or on clothing.

Conditions for safe storage, including any incompatibilities

Ventilation requirements: Keep containers tightly closed in a dry, cool and well-ventilated place.
Storage class (TRGS 510): Non Combustible Solids.

Specific end use(s)

Apart from the uses mentioned in section 1 no other specific uses are stipulated.

8. Exposure Controls/Personal Protection

Exposure controls

Appropriate engineering controls

Ensure adequate ventilation, especially in confined areas. Ensure that eye wash stations and safety showers are close to the workstation location.

Personal protective equipment

Eye/face protection

Wear safety glasses with side shields (or goggles) (European standard - EN 166) and face protection.

Skin protection

Protective gloves (The selected protective gloves shall comply with Regulation (EU) 2016/425 and EN ISO 374.) Wear appropriate protective gloves and clothing to prevent skin exposure. Wash hands thoroughly after handling.

Body Protection

Protective work clothing. Wear close-toed shoes and long sleeves/pants.

Respiratory protection

When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. To protect the wearer, respiratory protective equipment must be the correct fit and be used and maintained properly. Large scale/emergency use: Use a NIOSH/MSHA or

European Standard EN 136 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced. Recommended filter type:Particle filter conforming to EN 143. Small scale/laboratory use: Use a NIOSH/MSHA or European Standard EN 149:2001 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced. Recommended half mask: Particle filtering EN 149:2001+A1:2009. When RPE is used a facepiece Fit Test should be conducted.

Control of environmental exposure

Use appropriate container to avoid environmental contamination. Keep away from drains, surface and ground water.

9. Physical and Chemical Characteristics

Information on basic physical and chemical properties

Appearance

Form: Powder. Solid

Colour: White

Odor: Odorless

pH: Not applicable

Melting point/range: 2291 °C

Boiling point/range: 4118 °C

Flash point: No data available

Evaporation rate: Not applicable - Solid

Flammability (solid, gas): No data available

Upper/lower flammability or explosive limits: No data available

Vapor pressure: No data available

Relative density: 7.42 g/cm^3

Water solubility: Insoluble in water

Partition coefficient: No data available

Auto-ignition temperature: No data available

Decomposition temperature: No data available

Viscosity: Not applicable

Other information

Molecular formula: Eu_2O_3

Molecular weight: 351.93 g/mol

10. Stability and reactivity

Reactivity

None known, based on information available.

Chemical stability

Hygroscopic

Possibility of hazardous reactions

No data available.

Conditions to avoid

Incompatible products. Exposure to moist air or water.

Incompatible materials

Strong acids. Oxidizing agent.

Hazardous decomposition products

Hazardous decomposition products formed under fire conditions. - Europium oxides. Other decomposition products - No data available. In the event of fire: see section 5.

11. Toxicological Information

Information on toxicological effects

Acute toxicity

Oral LD50 - Rat - > 5,000 mg/kg.

Skin corrosion/irritation

No data available.

Serious eye damage/eye irritation

No data available.

Respiratory or skin sensitisation

No data available.

Germ cell mutagenicity

No data available.

Carcinogenicity

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC. OSHA: Not listed.

Reproductive toxicity

No data available.

Specific target organ toxicity -single exposure

Not classified.

Specific target organ toxicity -repeated exposure

Not classified.

Aspiration hazard

Not applicable. Solid.

Additional Information

Endocrine Disrupting Properties: Assess endocrine disrupting properties for human health. This product does not contain any known or suspected endocrine disruptors.

12. Ecological Information

Toxicity

No data available.

Persistence and degradability

No data available.

Bioaccumulative potential

No data available.

Mobility in soil

No data available.

Results of PBT and vPvB assessment

In accordance with Annex XIII of the REACH Regulation, inorganic substances do not require assessment.

Other adverse effects

Persistent Organic Pollutant: No data available. Ozone Depletion Potential: No data available. Endocrine Disruptor Information: This product does not contain any known or suspected endocrine disruptors.

13. Disposal Considerations

Waste treatment methods

Dispose of the material in accordance with applicable local, regional, and national regulations. Where feasible, consider recovery or recycling through an authorized waste management facility. The appropriate disposal method should be determined according to the material's properties and applicable requirements.

14. Transportation Information

ADR

Not classified as dangerous goods.

IMDG

Not classified as dangerous goods.

IATA

Not classified as dangerous goods.

15. Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture

Regulation (EC) 1907/2006, REACH, Annex XIV list of substances subject to authorisation: Not applicable

Regulation (EC) 1907/2006, REACH, Annex XVII restrictions on the manufacture, placing on the market and use of certain dangerous substances: Not applicable

Regulation (EC) 1005/2009 on substances that deplete the ozone layer: Not applicable

Regulation (EU) 2019/1021 on persistent organic pollutants: Not applicable.

Chemical Safety Assessment

No Chemical Safety Assessment has been carried out for this substance.

16. Other information

Disclaimer

The information of this safety data sheet is based on our knowledge of this product, at the time of publication. It is given in good faith. The attention of the user is drawn to the possible risks incurred by using the product for any other purpose other than that for which it was intended. This does not in any way excuse the user from knowing and applying all the regulations governing his activity. It is the sole responsibility of the user to take all precautions required in handling the product. The aim of the mandatory regulations mentioned is to help the user to fulfill his obligations regarding the use of hazardous products.

This Safety Data Sheet is prepared in accordance with Regulation (EC) No 1907/2006 (REACH), Annex II.
